

SMMT QUALITY MANAGEMENT DIVISION

The Automotive Quality Management Systems

Conference 2020

The theme for this year's conference is:
Leading the way to Quality

The conference will focus on the following factors and the impact on quality in a new and volatile environment:

- Leading leadership to quality decisions
- Becoming quality centric
- Driving company-wide buy-in for quality matters

The second day of the conference will consist of workshops to provide a more detailed view of the latest knowledge and thinking about automotive quality management systems, standards, tools and best practices.

Aims

The two day conference aims to raise quality standards in the UK automotive industry through the dissemination of the latest thinking in tools, techniques and philosophies.

The event includes speakers from OEMs, quality standards and accreditation bodies, as well as support organisations and panel discussion and collaborative, practical workshops.

**20th-
21st
October**

**Brandon
Hall Hotel,
Warwickshire**

About this event:

Aimed at leadership and quality management professionals operating in OEMs and throughout the automotive supply chain, the event is a valuable opportunity to hear from leaders in automotive quality and network with quality professionals at a drinks reception and dinner

The event will raise the profile of the UK automotive quality profession in the face of new and changing technologies, tightening OEM standards, the challenges brought about by Brexit and increasing calls for product safety accountability.

The AQMS conference has attracted speakers and attendees from senior OEM supplier quality management roles such as **JLR, BMW, and Bentley Motors** and **international automotive quality management experts**. Keynote presentations, a panel discussion and practical workshops will also be led by representatives from the **IATF, ISO and VDA with more to be announced soon!**

The SMMT QMD Automotive Quality Management Systems (AQMS) Conference is the only forum of its kind to raise the automotive quality management systems profession and has become a one-stop annual destination for the exchange of the latest knowledge and thinking on automotive quality management systems, standards, tools and practices.

Who

This conference is designed for all quality management professionals from both OEMs and supply chain companies across the functions of quality management and supervision, including:

- Quality professionals
- Supplier quality professionals
- Product design and development professionals
- Manufacturing and operations leaders
- Managing directors of small and medium-sized companies

Pricing

The two day conference is £315 + VAT. Join us for an optional networking dinner on the evening of the 20th October for £50 + VAT. Accommodation can be booked directly with the venue for a discounted rate when quoting AQMS20.

Booking your conference ticket before March 20th 2020 entitles you to a 10% early bird discount. Please use code **EARLYB20** at the checkout.
